

BIO-BOMBS™

COMPLETE ODOR REMOVAL SYSTEM

Have you tried absolutely everything to remove that funky smell from inside a car with no success? Look no further. **BIO-BOMBS™** has you covered. We don't mask odors with fragrance. We don't use aerosols or sprays. We use science. Our odor bombs are designed to eliminate foul odors by destroying them at their source.

How it works: When a **BIO-BOMBS™** tablet is submerged into water, a rapid reaction generates a gas called Chlorine Dioxide (ClO_2). This gas quickly leaves the water, occupies the enclosed odor-ridden space and a microscopic airborne battle ensues, resulting in a **BIO-BOMB™** win everytime.

BIO-BOMBS™ PERMANENTLY REMOVE THESE ODORS

- ★ Tobacco/Marijuana
- ★ Pet Odors (Wet Dog)
- ★ Rotten Egg

BIO-BOMBS™ FOR YOUR BUSINESS. Where there's a car, you could use a BIO-BOMB™

- ★ **Car Dealerships:** Never lose another sale to an odor issue. Keep and resell those smelly trade-ins. Offer your customers a quick and easy deodorization service while they wait.
- ★ **Auto Detailing Supply Distributors:** Create new customers, increase sales and earn reorders easily with a deodorizing product that actually works. Enjoy exclusive distributor pricing.
- ★ **Detail Shops:** Add an odor removal service to increase profits and earn repeat business.
- ★ **Car Rentals:** Eliminate smelly rentals, phase out costly air fresheners that only mask odors.
- ★ **Weekend Warriors/Car Enthusiasts:** Get a fresh, odor free ride anytime you want!
- ★ **Ridesharing/Carpooling:** No one likes a smelly trip. Offer your clients a better experience in a refreshed ride.

WHY BIO-BOMBS™ AND NOT OUR COMPETITION?

- **BIO-BOMBS™** are easy-to-use tablets. No tricky powder pouches, mixing or measuring.
- Our application jar fits snugly inside the car's cupholder. No trays or wide mouth jars to knock over on the vehicle floor.
- Extremely competitive pricing 50-75% cheaper than the other guys.
- Unparalleled customer support team with 20+ years in an industry we know and love.

IF YOU'RE CURIOUS ABOUT THE SCIENCE, READ ON. CHLORINE DIOXIDE:

- Is a gaseous molecule made up of 2 oxygen atoms and 1 chlorine atom.
 - Is an extremely versatile and effective oxidizer, with tremendous application potential.
 - Is so small (0.124 nm) that it can deodorize even the tiniest crevices inside a car.
 - Is able to denature odor causing sources on all surfaces including seats, headliners, carpets, visors, seat belts and even the ventilation system.
- Simply put, one **BIO-BOMB™** will restore air freshness and provide a pleasant, odor-free environment by removing smelly volatile compounds.
