

20 g
TABLET

ENVIROTAB™

FOR CLEANER AIR, WATER & SURFACES

FOREWORD

Thank you for joining us in the new dawn of clean. Prepare to be amazed at the power of our tablets. **Envirotab™** uses Sodium Chlorite and other ingredients to generate Chlorine Dioxide, a gaseous molecule with dazzling properties, which will be suspended in the water with which you mix it. For now, we can only briefly describe some of these benefits, as we are not yet allowed to state disinfection claims. Let's just say that study after study has demonstrated that you have made the right choice in selecting **Envirotab™** as your Air-Water-Surface cleaning product!

OVERVIEW

AIR	When dissolved in water, these tablets release a gaseous molecule that is able to rid the air of odors at their source.
WATER	When dissolved in water, these tablets: <ul style="list-style-type: none"> • Help to remove both organic and inorganic impurities from the water, and • Are recommended by the WHO for the purification of emergency and animal drinking water.
SURFACES	When dissolved in water, these tablets create solutions that: <ul style="list-style-type: none"> • Are highly effective in breaking down proteins and polysaccharides. • Greatly enhance the performance of microfiber. • Aid in mold and mildew removal.

Tobacco smoke is one of the most difficult odors to remove from an automobile, an apartment or a hotel room. Our 20 g tablet and 2 hours is all that it takes for **Envirotab™** to fix this for you.

Love a memorable taste? Of course. Want that memorable odor around forever? Eh, not so much. **Envirotab™** removes the lingering odors of fish, meat, spices, sea food and other sources from restaurants, kitchens, and processing plants.

MIXING

AIR	Pour 4-6 oz of water into a 10-16 oz container (open or vented lid) and add one 20 g tablet. This will release a potent gas that will clean the air in a 10' x 10' room.
WATER	To achieve a concentration of approximately 1 ppm, add one 20 g tablet to 500 gal of water. If this body of water is out of doors, open and exposed to sunlight, this procedure should be repeated almost daily, as UV light will cause gas to dissipate.
SURFACES	<ul style="list-style-type: none"> • For floor cleaning & deodorizing: Add one 20 g tablet to 10 gal of water. • For hand cleaning & deodorizing: Add one 20 g tablet to 5 gal of water. • For mold & mildew destruction/removal: Add one 20 g tablet to 1 gal to 1.5 gal of water. <p>Keep prepared solutions in sealed containers, away from direct sunlight.</p>

USE

AIR	The mixing procedure for this application should be carried out in the place in which the gas will be released. The room or vehicle space should be left unoccupied for 60-120 minutes after adding the tablet. When the application is complete, the room should be aired and the HVACR system or vehicle air conditioner should be activated for 30 minutes.
WATER	For nearly 80 years, Chlorine Dioxide has been one of the primary choices for cleaning fouled water in wastewater treatment facilities. Solutions of 0.5 ppm to 3 ppm are commonly used for everything from treating ponds to cleaning water and washing fruits and vegetables.
SURFACES	Chlorine Dioxide solutions, while containing no detergency ingredients, are still excellent at penetrating and breaking down the "scum" that can build up on contaminated surfaces. Chlorine dioxide has also been widely recommended by the EPA as a chemistry for the removal of mold, mildew, lichen and other fungi.

ENVIRO TAB™

20 g
TABLET

FOR CLEANER AIR, WATER & SURFACES

Housing Managers are often challenged by apartments left in a bit of a rush and perhaps less than pleasant to smell. Just two **20 g tablets** and 2 hours after the clean up is over can make the odorous honorable once again.

Don't lose another car sale because the vehicle just "didn't smell right". One **20 g tablet** and 2 hours is all it takes for **EnviroTab™** to make the "smelly" sellable.

STORAGE

Store in a cool, dry place, away from direct sunlight. Keep in an airtight container. Avoid contact with:

- Heat, sparks, open flames and electric discharges.
- Water and water vapor prior to its use.
- Metals, metal salts, alkaline materials, reducing agents and combustible materials.

The tablet should not be handled with unprotected skin and must be added to the water, NOT the water to the tablet.

Never get a complaint from a new account again over odors emanating from a newly delivered dumpster. One **20 g tablet** and 2 hours is all it takes for **EnviroTab™** to do the job.

PRECAUTIONS

DANGER: READ ALL DIRECTIONS AND SAFETY INFORMATION PRIOR TO USE.

Keep out of the reach of children; do not inhale gas or vapors; do not ingest tablets or solution.

1. Do not occupy vehicle or room while gas release for deodorization is in progress.
2. Once deodorization treatment is complete,
 - Allow product to gas off for an additional 2 hours or more prior to disposal, and
 - Dispose of contents/container complying with local/state/federal regulations.

This product is an oxidizer that may intensify fire. Contact with water releases gas that may be flammable. Avoid contact with water until use.

- Keep away from heat, sparks and open flames. Store away from clothing and combustible items.
- In case of fire use water, sand or extinguisher.

Harmful if in contact with skin or eyes: may cause irritation, burns and contact dermatitis.

- After handling the product, do not touch skin or eyes. Wash hands thoroughly.

Harmful if inhaled: may cause difficulty breathing, cough, throat soreness, airway burns, edema and bronchitis.

- Use in well ventilated areas. Do not inhale dust from tablet, nor gas, fumes, mists or vapors from the liquid.

Harmful/toxic if ingested: may cause mouth, throat and stomach irritation, pain, nausea, vomit and diarrhea.

- Do not smoke nor consume beverages or food while using this product.

Excessive concentration may be toxic to aquatic life.

Care in use:

- Exercise care when using this product: avoid inhaling the dust from the tablets and the gas that emanates from the solution; protect your eyes and hands while manipulating the product.

EMERGENCY AND FIRST AID PROCEDURES

If you were exposed and feel unwell or concerned, call poison center or seek medical advice immediately.

- **IF ON SKIN:** Remove all contaminated clothing immediately and wash before re-use. Rinse skin with water. If skin irritation occurs, seek medical attention.
- **IF SWALLOWED:** Rinse mouth and drink copious amounts of water. Call poison control center if you feel unwell.
- **IF INHALED:** Move person away from treatment area immediately.
- **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present.

Please use with care. Synergy Americas, Inc. does not assume any responsibility for the accidents or losses due to the misuse of this product.

By accepting this product, you warrant that you have reviewed the enclosed directions for use, safety instructions and handling.

ENVIRO TAB™ SIZES & USES AT A GLANCE

1 g For use as a cleaner: spray, let sit for 15 to 30 seconds, and wipe twice with a clean microfiber cloth.
1 qt or L

4 g For use as a mold & mildew remover: spray on, physically remove topical mold or mildew with a brush or cloth, then spray again and allow to sit for 3 to 4 minutes.
1-2 qt or L

10 g For use as a spray deodorizer or mopping solution: spray or mop and let air-dry. Always test on small, hidden fabric surfaces for color-fastness.
1-2 gal

20 g For use as any of the above applications: add to 4 - 6 gallons of water.
1 cup

Nothing generates lasting odor like hockey players and hockey gear. "Check" those odors right out of the arena by applying **EnviroTab™** to the gear and the room!

Pre-treating sidings and other surfaces with **EnviroTab™** makes power-washing a breeze!
