

100g  
TABLET

# ENVIRO<sup>®</sup>TAB<sup>™</sup>

FOR CLEANER AIR, WATER & SURFACES

## FOREWORD

Thank you for joining us in the new dawn of clean. Prepare to be amazed at the power of our tablets.

**EnviroTab™** uses Sodium Chlorite and other ingredients to generate Chlorine Dioxide, a gaseous molecule with dazzling properties, which will be suspended in the water with which you mix it. For now, we can only briefly describe some of these benefits, as we are not yet allowed to state disinfection claims. Let's just say that study after study has demonstrated that you have made the right choice in selecting **EnviroTab™** as your Air-Water-Surface cleaning product!

## OVERVIEW

Our 100 gram tablets are most commonly used in the large-scale remediation of the foulest odors in large spaces, and **deployed only by trained professionals**. These tablets, when added to water will generate a potent solution that will steadily release chlorine dioxide into the air, spreading throughout the space. The chlorine dioxide molecule is one of the smallest and yet most powerful in nature, having 70 times the power of hydrogen peroxide and significantly safer than the free-radical chlorine which is released by common bleach. The gas generated with these tablets may be released **Passive** method (without the aid of a bubbler) or an **Active** method (bubbler-assisted).

Life creates odors. We cook food, own pets, raise teenagers and rent space and it all presents challenges for the homeowner.

Our tablets release a gas that can remove the odors from curried foods, the odor and allergens from pets, body odor and rotting garbage.

Release Method	# of Tablets	Volume of Water	Rankness of Odor	Area of Deployment*	Time Allowance for Process
Passive	1	0.5 gallon	Mild	500 ft <sup>2</sup>	6-12 hours
Active	1	0.5 gallon	Mild	500 ft <sup>2</sup>	2-4 hours
Passive	1	0.5 gallon	Moderate	300 ft <sup>2</sup>	6-12 hours
Active	1	0.5 gallon	Moderate	300 ft <sup>2</sup>	3-4 hours
Passive	1	0.5 gallon	Heavy	175 ft <sup>2</sup>	12-24 hours
Active	1	0.5 gallon	Heavy	175 ft <sup>2</sup>	4-6 hours

*\*area of deployment assumes an 8 ft ceiling height.*

Please note that the above information does not replace full training or application instructions. To purchase this product you must first take our online course and be certified as an applicator.

100g  
TABLET

FOR CLEANER AIR, WATER & SURFACES

The removal of mold and its spores is a detailed process, performed by trained professionals, eliminating it from both the surfaces and the air.

The process of mold remediation is not complete without the use of our 100g tablets for eliminating the spores from the sub-surfaces, the HVAC and the air.

## STORAGE

Store in a cool, dry place, away from direct sunlight. Keep in an airtight container. Avoid contact with:

- Heat, sparks, open flames and electric discharges.
- Water and water vapor prior to its use.
- Metals, metal salts, alkaline materials, reducing agents and combustible materials.

The tablet should not be handled with unprotected skin and must be added to the water, NOT the water to the tablet.

Nothing generates lasting odor like hockey players and hockey gear. "Check" those odors right out of the arena by applying Envirotab™ to the gear and the room!

## PRECAUTIONS

### **DANGER: READ ALL DIRECTIONS AND SAFETY INFORMATION PRIOR TO USE.**

Keep out of the reach of children; do not inhale gas or vapors; do not ingest tablets or solution.

1. Do not occupy vehicle or room while gas release for deodorization is in progress.
2. Once deodorization treatment is complete,
  - Allow product to gas off for an additional 2 hours or more prior to disposal, and
  - Dispose of contents/container complying with local/state/federal regulations.

This product is an oxidizer that may intensify fire. Contact with water releases gas that may be flammable. Avoid contact with water until use.

- Keep away from heat, sparks and open flames. Store away from clothing and combustible items.
- In case of fire use water, sand or extinguisher.

**Harmful if in contact with skin or eyes:** may cause irritation, burns and contact dermatitis.

- After handling the product, do not touch skin or eyes. Wash hands thoroughly.

**Harmful if inhaled:** may cause difficulty breathing, cough, throat soreness, airway burns, edema and bronchitis.

- Use in well ventilated areas. Do not inhale dust from tablet, nor gas, fumes, mists or vapors from the liquid.

**Harmful/toxic if ingested:** may cause mouth, throat and stomach irritation, pain, nausea, vomit and diarrhea.

- Do not smoke nor consume beverages or food while using this product.

Excessive concentration may be toxic to aquatic life.

### **Care in use:**

- Exercise care when using this product: avoid inhaling the dust from the tablets and the gas that emanates from the solution; protect your eyes and hands while manipulating the product.

Like mold and mildew remediation, the soot from smoke or fire damage will linger forever if the remediation process is not made complete with the release of ClO<sub>2</sub> gas from our 100g tablets.

## EMERGENCY AND FIRST AID PROCEDURES

If you were exposed and feel unwell or concerned, call poison center or seek medical advice immediately.

- **IF ON SKIN:** Remove all contaminated clothing immediately and wash before re-use. Rinse skin with water. If skin irritation occurs, seek medical attention.
- **IF SWALLOWED:** Rinse mouth and drink copious amounts of water. Call poison control center if you feel unwell.
- **IF INHALED:** Move person away from treatment area immediately.
- **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses if present.

Please use with care. Envirotize® Solutions Inc. does not assume any responsibility for the accidents or losses due to the misuse of this product.

By accepting this product, you warrant that you have reviewed the enclosed directions for use, safety instructions and handling.

## OTHER ENVIROTAB SIZES AT A GLANCE

1g  
1 qt or L

**For use as a cleaner:** spray, let sit for 15 to 30 seconds, and wipe twice with a clean microfiber cloth.

4g  
1-2 qt or L

**For use as a mold & mildew remover:** spray on, physically remove topical mold or mildew with a brush or cloth, then spray again and allow to sit for 3 to 4 minutes.

10g  
1-2 gal

**For use as a spray deodorizer or mopping solution:** spray or mop and let air-dry. Always test on small, hidden fabric surfaces for color-fastness.

20g  
1 cup

**For use as any of the above applications:** add to 4 - 6 gallons of water.
