

# NO-NONSENSE POWDERS FOR PROS

## SYNERGY™ PRO POWER IN A POWDER

### BREAK THE MOLD

**PROFESSIONAL STRENGTH  
INSTANTLY REMOVES  
THE STAIN OF MOLD & MILDEW**

Is our super-efficient powdered mold stain remover designed exclusively for professional remediators. This product is powdered for quick mixing on the jobsite with very warm water and applied with a battery or 110v powered sprayer. You will see the results instantly as it removes the stain and discoloration associated with mold or mildew in attics, crawl spaces and, with proper ventilation, on interior surfaces. While not a registered fungistat (like Synergy Envirotab™), **BREAK THE MOLD!™** is a tremendous precursor to gassing of the space to eliminate the embedded mold spores or ahead of a mold-regrowth-prevention treatment with Synergy CHITOSHIELD™.

### BOOSTi02

**PROFESSIONAL STRENGTH  
CLEANER & DEGREASER WITH TiO2**

Is our super-efficient powdered cleaner and degreaser for the practiced professional cleaner. This product is powdered for quick mixing on the jobsite with very warm water and applied in any number of manners. This product is perfect for supplementing Synergy Soil Break™ or Envirotab™ when deep cleaning badly embedded soils and grease from commercial kitchen floors, concrete floors, restaurant carpets, work vehicle carpets and upholstery, siding, decking and fencing. It will remove soils where all others have failed. It may be applied with a sprayer, mopping solution, or if mixed with Synergy Soil Break™, even foamed onto vertical surfaces.

### BREAK THE STAIN

**PROFESSIONAL STRENGTH  
CARPET STAIN & ODOR BOOST**

Is our super-efficient powdered stain and odor remover designed exclusively for professional carpet cleaners. This product is powdered for quick mixing on the jobsite with very warm water, added at will to Synergy Soil Break™ and applied with a battery or 110v powered sprayer. You will see the results instantly as it removes the stain and discoloration on all carpets and fabrics - though we recommend testing this in an unseen area of wool carpets. While not a registered bactericide (like Synergy Envirotab™), **BREAK THE STAIN!™** does produce a powerful solution containing H<sub>2</sub>O<sub>2</sub> and certainly is effective on allergens and stain and odor-causing bacteria. We also can highly recommend a post-cleaning preventive treatment with Synergy CHITOSHIELD™.
